THE ROBOT

The question of the robot today is of far greater interest than might have been thought only year ago just before the mar-ket gave way in a crean which brought ablic attention upon the question of the o-called overproduction which is said to mean inability of the buyers to absorb due to low buying power. Back of all due to low buying power. Back of all the trouble are said to stand the mechan-ical inventions which turn out products at a rate faster than man can accommodate himself to, than man can change his ways. We have recently heard of oper-ations formerly carried on by machinery being ordered changed to hand labor in an effort to remedy the condition of this But that is only a temporary expe-

PUT WINTER GRADE RED INDIAN MOTOR OIL In Your Car Now!

BEFORE Winter drops down from the north, prepare for it by replacing your present oil with RED INDIAN winter grade.

RED INDIAN OIL enjoys a great reputation with the Dominion's motorists. More RED INDIAN has been sold this year than ever before, and increasing thousands of car-owners are counting regularly. upon RED INDIAN service to keep their motors in fighting trim.

There is a RED INDIAN station . . . specializing in RED INDIAN MOTOR OIL and other McColl-Frontenac products . . . in your locality. Visit it to-day. Have your crankcase retilled with the proper winter grade of RED INDIAN OIL. It will mean added driving satefaction in the weeks and months to come.

INDIAN SUMMER

This is the season of Indian Summe This is the season of Indian Summar and it may be here now. This season of bright and warm days and hazy atmos-phere is one of those periods which seem like a rebirth of life, as if nature had re-yersed the order and turned autumn back yersed the order and turned autumn back into summer. It is with some such feel-ing that people ofte nthink if the world could only turn back to the yesterday or the yesteryar. It would be as like life as Indian Summer resembles summer in

Mrs. H. B. Anderson has just written in the Picton Times some lines "Indian Summer" which sum up the spirit of this time of the year:

Summer is dead! The days we used to know Have passed forever with time's ceaseless flow And Joy of bird and bee, of fruit and flower Remain but memories of a happy hour.

n the skies are asure blue, shining and the waters too; see veils all the distant height, air is filled with amber light.

aceful are these days of calm and rest— sase from life's anxious toll and quest— silence broods o'se full and vale and stre th calm Nature we may idly dream.

O Canada! this Indian Summer time, These days of charm and dream alone are thine, and help to win, where'er their steps may roam The hearts of wanderen to their northern home.

PHEASANT SHOOTING

Perhaps some day in Ontario and even in this section there will be hunting as in Merrie England where pheasant shooting is one of the attractions.

Up Nigara way there was one day set apart for the shooting of the fleeting bird this year and some five hundred fell bird this year and some five hundred fell before over four thousand guns. It was a one day game. On the same day one hundred pheasants were released at Trenton and will find their way into Prince Edward and Hastings Counties and many will survive the winter season and in time if the climate is not too severe find a real habitat here. If they do, in time local gunners will have the opportunity which Niagara Peninsula men had a few days ago.

ago.

This is the possibility within a few years. No other explanation could be made of the releasing of one hundred of the releasing of one hundred of these birds unless the Department of Game and Fisheries has this thought in mind. When there are enough birds hereabouts there will doubtless be open season.

SUE ENOUGH

An Emporia man's car struck the rear a car driven by a woman. "Didn't you see me stick out my hand?"

"Didn't you see me suck out my hands' the woman asked.
"No, I didn't, Miss," he replied.
"Well if it'd been my leg, you'd have seen it," she replied and drove away.

Before answering that question, just remember please that in succeeding days you will have many other commercial travellers call upon you trying to sail you foreign-made pibles, foreign-made sailed dreaings, products—some under brand names made familiar to your customers through advertings and all a prices that give you a chance of increasing your margin of profit. So again I sak what are you going to deabout it?

Admitting for the sake of argument that you enhance your reputation for dispersive if you are always able to supply your customers with any brand they choose to ask to, it is this of you customers to be spending their maney for foreign-midely foods instead of Canadian-made foods And if it int, is it wise of you to make it easy for them to do see?

With a few exceptions, nearly all Canadian-made foods originate on Catadian farms. The since your customers favour Canadian-cased from which those foods are made. And the busic Canadian farmes are, the botter it will be for all other classes, including of congr your customers, whose propasity itsees and falls with the prosperity of the

"Quite so," you may say, "but I have to buy a lot of imported merchan-dise in any event. I have to buy oranges, and lemons, nuts and taisins, toe, coffee, occose, spices, and socres of shert things. In this district, hundreds of householders are finding that by using this celebrated all-Canadian fuel, their furnaces are actually paying them a dividend.

On every ton they are able to save one-third of their former fuel expenditures. And in addition to this remarkable economy, they receive greater returns in comfort, convenience and cleanliness.

AT THE UPPER BRIDGE

Payored with unusually fine weather, operations at the upper bridge have been speeding forward so that the end of the construction is now within reasonable, distance. Everything this year has seemed to favor the projects of the city council. The upper bridge which was begun late at a time when froct might almost have been expected in September is now well on the way to the end of the work for the floor is in place and only the arches and the rail-

in place and only the arches and the railings require to be put in.

Council and citizens ought to be pleased with the successful undertaking, and citizens especially because a council has been farsighted enough to undertake to provide the city with uptodate crossings over the river.

WEATTH OF LIVING

This is true wealth of living:
To share in others lives,
To feel their joy is giving,
Their faith which upward strives;
To lend to others' weakness
What strength we can command.
To learn to live with meekness,

To try to understand. This is true wealth of living:
Not hoarding any good,
But day by day forgiving
Each hostile word or mood;

Not keeping any treasures Just for our selfish ends, But passing on the pleasures

Quickly prepared and served with jelly or syrup

Of course your family likes pancakes-nearly every one does. But wait til' they've tasted Aunt 'Jemima's pancakes rolled with jelly, or waffles or muffins served with syrup. They make wonderful serts or a new, easily prepared supper dainty.

Aunt Jemima's pancakes were famous throughout the Old South. The identical ingredients, ready mixed, come to you today in Aunt Jemima Pancake Flour. Simply stir with water or milk, and cook over a moderate fire. In a few moments you have the tender delicious pancakes that delighted those southern-epicures.

For buckwheats use Aunt Jemima prepared Buckwheat Flour. - It contains just enough choice buckwheat flour to give that wonderful buckwheat tang, and is just as easily prepared. Keep both kinds of Aunt Jemima ready for every demand.

In this regard it may be expected that the Ottawa conference will expected that the Ottawa conference will be helpful in pointing ways and means to develop new markets. Competition from other countries, and business depression generally, have combined to force prices exactly the properties of ness to competitors who would increase their supplies to the markets at market prices. The best remedy that Canada can seek is through new markets. Clearly, that idea was in the mind of the Minister of Agriculture when he decided to confer with provincial representatives in an endeavour to formulate a poly likely to benefit the country as a whole, says the Montreal Gazette.

Montreal Gazette.
Pertingent to this question it is noteworthy that yesterday's cable despaches report that Premier Bennett hopes to visit Paria after the Imperial Conferênce in order to discuss trade-matters with the French Government. France, it is reported, its articles to which with the ported, its articles to which is now trade French Government. KOOLMOTOR

the original high test, antiknock green gas

combines them all in ONE!

Some gasolenes are built to make a showy effect in starting—some in pick-up-some in anti-knock performance. Unfortunately these effects are produced at the sacrifice of other phases of performance equally important.

Koolmotor, the original high test, antiknock green gas, combines the best; points of all gasolenes in one superior motor fuel.

Koolmotor - the gas that is good throughout-excels in all the 11 points of gasolene quality. It is laboratory tested 11 times in the most exhaustive tests ever given any gasolene - tests for starting, acceleration, anti-knock, power, vapor pressure, odor, corrosion, sulphur, gum content, distillation, and mileage.

You don't have to try 11 different gasos lenes to get the good points of each. They're all combined in one; Koolmotor, the gas that gives you the greatest mile-by-mile performance money can buy - one gasolene that really justifies its premium price.

MONTROSE DAIRY

We Wish to Announce the Opening of our New Dairy in the Near Future

High Grade Milk Produced at Montrose Farms

WE INVITE YOU to inspect our new snow white barns which are the most modern and sanitary in Ontario, and see for yourself the ideal conditions under which our milk is produced.

OUR HERD has been both Tuberculin and Blood Tested by Dr. Reed, the Government Veterinary representative, and will continue under his .

AN EXPERT HERDSMAN, Mr. F. Marner, is in charge of the barns.

OUR COWS ARE CLEAN, Groomed and Washed daily, and are kept spotless, and fed only the parest and cleanest of food, also have individual drinking fountains of pure water.

WE HAVE INSTALLED at our barns the most modern and scientific Milking Machines, Clarifiers, Aerators, and Coolers, which are absolutely necessary to the production of Pure Raw Milk.

OUR DAIRY at the Graham Cold Storage is absolutely the latest type of Dairy installation including Bottle Washers and Sterilizers, Automatic Fillers and Cappers, a Pasteurization machine with a direct line cooler operated by cold storage machines to cool milk, quickly, guaranteed not to destroy the cream line as is so often noticeable in pasteurized milk, and a cold storage room exclusively used to store and keep our milk perfect until delivered.

THE MOST MODERN Motorized Delivery equipment in Canada. The very best service available at all times.

NO INCREASE IN PRICE for all this protection, just the same as you have been paying, namely, TEN CENTS PER QUART.

CREAM TICKETS are also available for guaranteed heavy gream, always the same quality, as our Cream Separators are set scientifically and motor driven, insuring uniform anality that will be dependable.

WE CONSIDER that raw milk produced and stored in this manner is eastly superior to pasteurized milk, as none of the necessary Vitamins are destroyed, and the natural flavor is retained—but to satisfy those of our customers who prefer pasteurized milk WE HAVE IN-STALLED AN UP-TO-DATE PASTEURIZING PLANT; so both varieties are obtainable.

BONDS MEAN SAFE INCOME

THE SOUNDNESS of an investment depends upon security of principal and regularity of income.

That is why bonds are an essential part of every wise investment plan. They mean safety of income as well as security of principal.

Every investor should own good bonds and today offers unusual opportunities to purchase them at prices which yield a satisfactory rate of income.

We shall be glad to submit suggestions suitable to your particular needs if you will write or telephone.

DEPARTMENT OF TRADE AND COMMERCE OTTAWA, CANADA

November 8th, 1930.

To Canadian Manufacturers, In Every Line of Business.

Remember the Golden Rule!

ome weeks now I have been urging consumers in every-past of the to buy your products in preference to imported products. There to make it quite clear to them that, in their own interest, it's the one more thing to do.

Now if it is sound opnation sense that your fellow Canadians should support you, in your efforts to increase and to improve your production, into it it also sound common sense that you, in the purchase of your materials, should support other Canadian producers who are trying to increase and to improve their production?

It's a poor rule that won't work both ways! When others wrench the selves out of life-long habits to do something that will help you; do you agree that it's up to you to reciprocate in whatever way you of

you agree that it is up to you to reciproce in whatever, we you con-sense that you might co-operate? When you but materials and supplies, do you always make a conscioutious effort-is fire and supplies, do you always make a conscioutious effort-is fire and supplies, do you always make a conscioutious effort-is fire and to provide do you make you must be a supplied to the provide and the provided about the produced in Canada, are your reasons for importing other things that do not fall within that category such that you would have no heightion in making them public?

No fair-minded person is ever going to reproach you for buying imported materials and supplies when you can advance perfectly valid reasons for doing so. For example, if, after making dillight search, you were unable to find a single Canadian produces who could make deserved to the country and the quantity, and in the quantity and and with the country to make your requirements, and at a great with could find to pay, that would your requirements, and at a great with could find of the part of the sufficient reason for your giving your order to a foreign producer.

On the question of gas leakage Mr. Spanner hittes that the enormous size of the R-104 gain the R-104 necessitate the sac of many-hundreds of thousands of 'gold-healer' timins." He avers that as band, "skin" is a potential source of leakage, as are also the joints between the stime, increase the size necessarily involves a corresponding increase of risk of leakage. "The Evening Standard tells us then."

"Very much more, he claims, was being asked of the envelop of both airships than in the case of the Graf Zeppelin.

"This would be the case oven were the peeds of R-100 and R-101 no greater than higher speeds are expected, the stresses would be increased—roughly as the square by the comparative speeds.

"As to skability in flight, Mr. Spanner claims that difficulties in controlling these ships might be expected from the fact that they are intended to be driven at high that they are intended to be driven at high the speed of the comparative speeds."

CHRISTMAS will be different this year if you do this

HE WAY to make your Christmas shopping easy is to look at the advertisements in the daily newspapers. You will find in them a host of helpful suggestions.

Instead of tramping aimlessly from—shop to shop
— and from counter to counter — inspecting
thousands of articles displayed for the holiday
trade, turn to the advertising columns of your
favourite newspaper and be guided by the most
direct route to the desired purchase.

Wasted time and wearied steps are thus eliminated and your shopping is done to much greater advantage.

You are puzzled about what to give Father or Mother; it is hard to decide what to buy for seven year old Betty; you find it difficult to select a present for the best friend and the older folks. No matter what your gift problems, and we all have the same problems at Christmas time, the advertisements in the daily newspapers will help you solve them. Reading the Christmas sales messages in your daily newspaper will save you time, energy and money. Read them every day.

Turn to them now and benefit by the assistance which retailers and manufacturers offer to solve all the puzzles that arise out of your Christmas shopping. The best and choicest wares of all the world are available in the shops today.

MONTROSE DAIR

We Wish to Announce the Opening of our New Dairy in the Near Future

High Grade Milk Produced at Montrose Farms

WE INVITE YOU to inspect our new snow white barns which are the most modern and sanitary in Ontario, and see for yourself the ideal conditions under which our milk is produced.

OUR HERD has been both Tuberculin and Blood Tested by Dr. Reed, the Government Veterinary representative, and will continue under his

AN EXPERT HERDSMAN, Mr. F. Marner, is in charge of the barns.

OUR COWS ARE CLEAN, Groomed and Washed daily, and are kept spotless, and fed only the purest and cleanest of food, also have individual drinking fountains of pure water.

WE HAVE INSTALLED at our barns the most modern and scientific Milking Machines, Clarifiers, Aerators, and Coolers, which are absolutely necessary to the production of Pure Raw Milk.

OUR DAIRY at the Graham Cold Storage is absolutely the latest type of Dairy installation including Bottle Washers and Stevilizers, Automatic Fillers and Cappers, a Pasteurization machine with a direct line cooler operated by cold storage machines to cool milk, quickly, guaranteed not to destroy the cream line as is so often noticeable in pasteurized milk, and a cold storage room exclusively used to store and keep our milk perfect until delivered.

THE MOST MODERN Motorized Delivery equipment in Canada. The very best service available at all times.

→NO INCREASE IN PRICE for all this protection, just the same as you have been paying, namely, TEN CENTS PER QUART.

CREAM TICKETS are also available for guaranteed heavy cream, always the same quality, as our Cream Separators are set scientifically and motor driven, insuring uniform quality that will be dependable.

WE CONSIDER that raw milk produced and stored in this manner is vastly superior to pasteurized milk, as none of the necessary Vitamins are destroyed, and the natural flavor is retained—but to satisfy those of our customers who prefer pasteurized milk WE HAVE IN-STALLED AN UP-TO-DATE PASTEURIZING PLANT, so both varieties are obtainable.

If Aladdin, by rubbing his magic lamp, conjured up some tempt-ing repast, it couldn't be ready much sooner than you can pre-pare delicious pancakes with Aunt Jemima Pancake Flour.

You simply stir. this readymixed flour with equal quantities of milk or water and cook on a moderate fire. Presto! You have light, flavoury paneakes that just melt in your mouth.

Aunt Jemima's recipe was famous in the heyday of the Old South. Her-flour that comes to you today is just what she used then mixed in the same proportions so you get the same wonderful results.

Many other tasty, things can be made with Aunt Jemima Pan-ciake Flour... waffles, muffins or pancakes with jelly. Or, if you prefer the tang of buckwheat; it is just as easy to use Aunt Jemima prepared Buckwheat Flour. Keep both kinds of Aunt Jemima, always in the pantry,

DEATH AND LIFE

by Bishop William Croswell Doane We are so stupid about death. We will not learn

How it is wages paid to those who earn, How it is gift for which on earth we yearn, To be set free from bondage to the flesh; How it is turning seed-corn into grain, How it is winning Heaven's eternal gain, How it means freedom evermore from pain How it untangles every mortal mesh.

We are so selfish about death. We count Far more than we consider their relief, Whom the great Reaper gathers in the

Some folks here were highly skeptical of Tom Mix's presence in persence in Commercial the circus next summer. Tom Mix, as a circus attraction has a certain value, for the kiddies are nuts about him as a result of watching his Wild West pictures, but he of watching his Wild West pictures, but he will have to keep the pictures going to keep up the interest for a new generation of kiddies is always evolving and a winter without Tom Mix in the movies would mean a summer circus crowd of peanut munchers who knows him not. As to the salary of \$15,000 a week I cannot see how any mere man could be that attractive, now if.it.was Mix. Mix or the little Misses Mix—but why bring that up.

Crisp cold air brings a touch of color to every one, but it soon passes unless good health keeps it there, Shredded Wheat is an ideal indoor-weather food. It contains the mineral salts that make healthy red blood and the bran that promotes regular habit even though exercise is restricted. Plenty of nourishment-and easily digested too. Eat Shredded Wheat every morning-a biscuit or two with hot milk for a delicious, vitalizing breakfast.

SCREEN GRID TUBES

7 Tubes in all and every one fully guaranteed by ROGERS

YOU take no chance of unexpected and annoying tube expense with a Rogers Radio because every tube including the new Rogers Perfected Screen-Grid Tubes—is fully-guaranteed.

Moreover, due to production economies, reduced costs, shorter profits and increased output, you can purchase any of the 1931 models at prices that represent savings of \$25 to \$60 in actual value.

The new Perfected Screen-Grid Rogers-by five years a better radio than the Rogers was in 1925, offers you "pin-point" selectivity . . . sweeping power ... true natural tone ... highest value for the price you pay.

Thousands have already chosen the new Rogers as their radio for 1931 ... come in today and see it for yourself. A small cash payment will place any of the new models in your home and you can pay the balance while you are enjoying your Rogers.

One of the season's most striking, most beautiful cabinet designs. Shaped front with projecting centre section. Shaped and bevelled top, marched vencers. Perfected Screen-Grid. \$230

To "The Man from Missouri"

If you are one of those shrewd men who "must be shown to be convinced"-who, whether it be politics, motor cars, or clothing, must have visible proof of every fact placed before you-this announcement will interest you vitally.

For twenty years Tip Top Tailors have claimed the value leadership in popular priced tailored-to-measure clothes in Canada. On that foundation we have built the largest business of its kind in the world. We have satisfied more than 2,500,000 men -in style, material, workmanship, fit and value. We have clothed more men each season since 1910. All of which we believe substantiates our belief that Tip Top Clothes are unquestionably outstanding.

But we don't want you to take our word for it. We only ask that you come in-see and examine our fabrics, our styles, our tremendous variety for yourself. Then compare with any other clothes, not only at a similar price, but at \$35, \$40 and up. We

are satisfied to let your judgment decide whether or not you can save money and be better dressed by making Tip Top Tailors your clothes headquarters.

WHEN STARS UNFOLD

When stars bloom out against the As lilies on blue waters lie; When they unfold Their petals gold And drift on night's tranquility.

Then is man's thought most calm and pure,

Hope then is most serene and sure,
Freed from all doubt
When stars shine out,
Bright stars that evermore endure.

For peace like incense fills the night,

For peace like incense fills the night,
Released on rays of starry light;
Life holds no fear
And heaven bends near
As far worlds lends us their delight.

— Aline Michaelis

BELLEVILLE COLLEGIATE BOYS have been playing good football this season and by their provess adding more interest to the great battles of the gridiron here and elsewhere. In the United States the pigakin chasers are enjoying a remarkable season with some of the biggest colleges being humbled by smaller seats of Valle has been sorely tired to keen from elearning. Harvard has been beaten and Yale has been sorely tried to keep from ignominious defeat. Notre Dame, a westerh college which has been gathering strength for the past few years under Coach Knute Rockne, one of the greatest Coach Knute Roccine, one of the greatest players that ever tore up a gridiron, has a perfect football maching this year, conjugate the property of the propert for touchdowns, leaving a trail of battered and bloody Penn men who had the tem-erity to try and stop him is the story. Marty-would not be stopped and his special reason for trampling the Penn team underfoot was that he had been a student there and had been turned down as a possibility for the stopped and the stopped by Rockne, became a perfect part of a per-fect football machine—and did he enjoy himself Saturday?

WHEN we say "test by test, mile by mile, Koolmotor is the finest gasolene you can buy" -we mean it-it's a fact-we've proved it!

In the laboratory this thoroughbred among motor fuels must pass eleven of the most rigid quality tests ever applied to any gasolene -tests for starting, acceleration, anti-knock, power, vapor pressure, odor, corrosion, sulphur, gum content, distillation; and mileage.

Should a single gallon ever fail to meet any one of these eleven rigid tests, it is never offered for your use. You can bet on the fact that every gallon of Koolmotor Gasolene pumped from a green and white pump is full of unchallengeable service and quality-test by test, mile by mile.

Why be satisfied with a gasolene whose benefits end with a showy effect in one phase of performance? Insist on Koolmotor-the gas that gives perfect performance from the time you start your car until your foot calls a halt to your

Extra demands of cold-weather driving emphasize the reliability of the new Ford

THROUGHOUT this country - in the United States and in Europe — the new Ford has made an unusual record for endurance and reliability. Cold weath emphasizes the value of its simplicity of design and dependable performance

Winter-time Features of the New Ford

STARTING - The Ford starts easily in cold STARTING — The Ford starts easily in cold weather. The heavy dity starting motor is unusually reliable, exerting a torque of 15 pounds. Its extra power equips it to meet the added strain of zero temperatures.

RELIABILITY — All working parts in the Ford that might be affected by show or water are fully enclosed. This includes the engine, transmission, clutch, propeller shaft, and all

SAFETY — The brakes on the new Ford are also enclosed to insure reliable performance. Combined with the balance of the car and the Combined withship balance of the car and the low center of gravity, they lessen the dangers of skidding on slippery roads. The liberal road clearance enables the cap to negotiate deeply rutted roads impassable to many cars. Other safety features are the shatterless glass midshield which reduces the dangers of flying glass in collisions and the sturdy steel construction of the car.

ICARTION - The Ford distributor is we IGNITION — The Ford distributor is water proof and there, are no wires from the dis-tributor to the spark plugs. These connec-tions are made by thin bronze strips which will not short-circuit or cause trouble in cold, CARBURETOR - The choke on the dash of th CARBURETUR — In enough on the dash at most Ford in a convenient earburetor adjustment control. It enables you to adjust the mixture for different temperatures and different road conditions. The hot-spot manifold warms incoming gases quickly by using heat

FUEL SYSTEM + Here again you see the value of Ford simplicity of design. The fuel line is only 18 inches long. There is no pump or vacuum tank to condense moisture and freeze.

LUBRICATION - The Ford lubrication system LUBRICATION — In a Ford untereation system is designed to work efficiently at all temperatures. All oil passages are ample in size. There are no small pipes, through which congealed oil must be forced. Just select the right kind of oil, have it changed regularly, and you will have no fubrication troubles with a Ford.

FINISH—All Ford cars are finished in pyroxy lin lacquer - the finest and most enduring finish for automobile bodies. It is not affected nuan for automobile bodies. It is not affected by cold or heat and will retain it original shimmering luster for a long period. A furbler assurance of permanent beauty is the Rusalesh Steel on the new Ford. It is used for the radiator shell, head lamps, hub caps and other bright exterior metal parts.

Heart Disturbances

Such as Palpitation, Fluttering, Missing of heats bring keen mental distress. The most frequent cause is exhausted nerves

Whatever may be our ideas about other organs of the body and their disorders there is nothing which brings such dread and anxiety as to have omething go wrong with the heart.

It is above all others the vital organ. In health it tirelessly pumps the life-giving blood through the human system and its action depends, for motive power on the nerves.

Weakness or exhaustion of the nerves also means weakness of the action of the heart and such derangements as "palpitation," "fluttering" or "missing of heart beats."

Lasting relief can only come when the nerves are restored by such treatment as Dr. Chase's Nerve Food.

It may be that worry, anxiety, overhave had something to do with your con-dition. It may be that your blood is thin and watery and that you are anaemic.

Rest and quiet will help but nervous disorders do not right themselves. The blood must be enriched and the strength of the nerves built up and this can be best lished by the use of Dr. Chase's

To help you combat the menace of disease germs and to protect you from losses, Blatchford's have developed a process of manufacture which makes "Fill-the-Basket" Egg Mash SAFE

Bay this special process of manufacture—and the use of new bags only—every bag of Blatchford's "Fill-the-Basket" Egg Mash leaves our mills germ free. The possibility of it being a carrier of deadly disease germs has been eliminated—witch makes it SAFE.

This exclusive safety feature, alone, should be reason enough for feeding Blatchford's "Fill-the-Basker" Egg Mash, but in addition to that it also produces more eggs per hen at the lowest feed cost per egg. Body weight maintained MORE EGGS

LONGER CIVIC TERMS

LONGER CIVIC TERMS

In advantage of longer civic terms is agitating the press of Toronto as well as the city council there and there is a plan to submita belyaw to the people providing for two year terms for mayor, control the state of the

stage of public interest which counted ar-fairs do.

The public way ear term has yet to be proven in the council. Council members who have done well and have proved their position are certainly better fitted than newgomeirs every year who take months to learn the routine which has to be learned before members of the council are really of much value though a farsee-ing man can get a sertain distance along the road of success with less knowledge of routine than the ordinary man honever al-ways fearful of a dictatorial body and rightly or wrongly may fear that a longer term may lead to an aggressive body with-in council too powerful for the electors to hold in check. Belleville has never yet seen a council too dictatorial.

n council too powerful for the electors wo hold in check. Belleville has never yet seen a council too dictatorial.

It is probable that some day there will be a trial given to the double term, which has its advantages that doubtless outnumber the disadvantages.

belief in the occult?

Many might be converted to belief in the hidden mysteries and be ready to submit to belief in the occult and it might not affect heir. Here overnuch to believe therein, while others might give cradit to it to their minds disaster and one would be doubters to the end and claim that the wrath was not an actuality at the be touters to the end and claim that the wraith was not an actuality, either material or ghostly—that it was a delusion. Interest will bentre on this seene in the famous London playhouse until there is an explanation of some sort, for the human mind is inquisitive over such things.

JOY AHEAD! without a worry-how it pays

BEFORE a happy evening, take a bath with Lifebuoy Soap. Millions, the world over, do that to be safe.

Body odours destroy many a romance, and wipe out the choicest charms. Yet Lifebuoy offers everybody absolute pro-tection for six hours at least.

Sweetness is not a mere matter of cleanli-ness. Bad odours come from rancid oils, deep in the pores. Every drop of pers-piration brings them out.

puration brings them out.
But Lifebuoy, with its safety factor, cor-rects that situation, "Its antiseptic lather goes deep. For at least six hours after you use it, you have no worry about odours.

The Safety Scent

Lifebuoy leaves a little scent—a safety acent. But it disappears at once. It lingers only long enough to say, "100 to your evening; you are safe," Then there remains just the odour of the clean. And safety for at least six hours.

All the world over, at every sunrise and sundown, millions of happy people guard their charm with Lifebuoy.

It Fights Germs

Lifebuoy is a soap for the toilet and bath. The basis is two palm olds. It is a soap in the toilet and bath. The basis is two palm olds. It is a soap as exquisite as the largest Soap makers in the world know how to give you. But we add a germicide because you need it in a soap more than any other factor.

factor.

Your hands touch many things, and every touch brings germs. Life Extension Institute lists 27 diseases which may be conveyed by hands. Perhaps half the codes, for instance, are coaveyed by imprints of a hand that checked a meese.

Think of that when you touch biscuits, fruit, candy, etc. In protection to you and yours, wash your hands in Lifebuoy lather before you touch a food. Otherwise, every finger-print on, anything catable is a nest of germs.

First Cake Free

We offer the first cake of Lifebouy free-only one to a family. Just to let this matchless soap argue for itself. Ask us for this free cake. Cut out the reminder so you won't forget. Do it now.

MURNEY'S HILL PROTECTION

MURNEY'S HILL PROTECTION
A suggestion has been made in a letter
of the Ontario Intelligencer today regarding the need of a warming and
a suggestion has been made in a letter
street at the foot of Murney's Hill. This
light might be a large yellow colored light
bearing the lettering "Caution" upon the
globe. This would have a tendency, the
writer of the stetr feels, to curb excessive
speeding at this point and would also protect the pedestrian and motors which enter
upon Bridge Street west at this point, Cedra, James and Everett Street. The miater is worthy of consideration. Many cities have these lights which are a guide
and a hint to the motoring public.

WANTED MEN-AND WOMEN

Let there be no lack of enthusiasm for the next eleven days at the end of which time this city will have elected the council, the school trustees and a Hydro commis-

the sensor trustees and a right commis-sioner for the ensuing year.

A good-sized field of candidates is what this city needs. Those who offer themselves for office are to be commend-but they cannot help it if others fall short

but they cannot help it if others fall abort of their opportunity to serve, by declining to run. It is hoped that all of the present council will be in the lists next week fighting for a place in the local government. Aldermanie posts are posts of honour and of service. THINKING WAR

THINKING WAR.

Slowly-but perceptibly the opinion seems to be gaining ground that there may be another war within ten years. Events in the world of the past year or two and weariness at the taxifiness of the coming of the millenial dawn following the great war have led many to adopt an air of pessimism and to look for the worst. We have seen what an era of pessimism of world and there may be a real danger should such pressimism as to peace continue.

done to a bull-a seed danger would such perform an expension and the seed of t icrows not war have been the world was a nursher of armed camps. According to the Christian Science Monitor many of these young apeople lock upon pace elshould be taught not only the horrors of war but the imperiabable grandeur of peace also. To this latter must be added information regarding the ways of preserving peace. Happly, there are signs that this course is being pursued. It is to education then, broadly conceived, that the age long attempt to sheath the sword."
Thoughts are powerful, they are dangerous or they are constructive. Belief

gerous or they are constructive. Belief that there may be a war may help to prepare for war, unless it turns men's minds to make every effort to prevent such a catastrophe.

WINTER FAIRS, INSTITUTES

WINTER FAIRS, INSTITUTES
Such events as winter fairs and conyentions of Women's Institutes are doing
a great deal to make life on the farm better
and happier. The farm like the city today is undergoing changes like everything in the world and it would be strange.

cities and towns will always continue, for
the lifeblood from the country is needed to
vitalize the speed-life of the urban centree.

Now the country is becoming as altractive as the city as scientific knowledge is permeating every department of farm life from the growing of grain, the rotation of crops, to the preparation of meals, the matter of education, the question of economonics in all its phases of farm life, and continued to the component of the control of t farmers are not so busy are great seeding places for the minds of the farming com-

Already this movement is showing its effect upon the city and the nation.

No better work is being done anywhere than that done by the Women's Institutes of this county and district.

WOMEN IN SPECULATION

Now the truth can be told! Womer speculators are described after their ex speculators are described after their experience in the market crash of November 1929. Much has been written upon the utilitied of the woman investor and here are some of the opinions as gathered in the New York Times:

In the Woman's Journal Frances the Company and the world of all this chaff. Similar the Woman's Journal Frances flow grains of truth out of all this chaff. She believes that women in Wall Street have come to stay. In a recent round of so, but it is rarely done now.

Tom's mother when the horrible doubt struck her — had she, or had she not remembered to turn off the electric iron? It might have started a fire and ruined the apartment. And she was a hundred miles away.

She picked up the telephone. In two minutes she was speaking to the janitor. In three minutes more he had investigated and told her everything was all right.

How easy to find out! And what a relief to be sure! To her it was worth many times the small cost of the telephone call.

CHRISTMAS will be different this year if you do this

HE WAY to make your Christmas shopping easy is to look at the advertisements in the daily newspapers. You will find in them a host of helpful suggestions.

Instead of tramping aimlessly from—shop to shop—and from counter to counter—inspecting thousands of articles displayed for the holiday trade, turn to the advertising columns of your favourite newspaper and be guided by the most direct route to the desired purchase.

Wasted time and wearied steps are thus eliminated and your shopping is done to much greater advantage.

You are puzzled about what to give Father or Mother; it is hard to decide what to buy for seven-year old Betty; you find it difficult to select a present for the best friend and the older folks. No matter what your gift problems, and we all have the same problems at Christmas time, the advertisements in the daily newspapers will help you solve them. Reading the Christmas sales messages in your daily newspaper will save you time, energy and money. Read them every day.

Turn to them now and benefit by the assistance which retailers and manufacturers offer to solve all the puzzles that arise out of your Christmas shopping. The best and choicest wares of all the world are available in the shops today.

DICTION

The talking picture and stage are doa great deal to mould diction. United States audiences are welcoming British actors in the films giving the care ful English accent. George Arliss who recently received the American Academy of Arts and Letters gold medal for his diction on the stage in acknowledging the honour pointed out that many American-isms are old English words which had been in use across the Atlantic one and half The Hamilton Spectator centuries 200. says in regard to this matter of diction:

But there is, after all, no such thing "But there is, after all, no such thing as a standard English accent, or at least one which would be accepted as such by the generality of those who use the language. The Englishman tentily from the continued states that the continued states there is the nesal twang of the New Englander, the drawl of the southerner and the rolling "a" of the westerner. "Mr. Edward Brangsombe, director of the Westmister Glee Singers, when he was in Canada, thought he detected the Yankee twang among Canadians and averred." he Westminster Giee singers, when he was in Canada, thought he detected the Yan-kee twang among Canadians and averred that the puese English was solken in Aberdeen. Prof. Maurice Hutton thinks the Canadians of Otherin was no distinction of the Canadians of Otherin was not distinction. The Canadians of the Canadians of Otherin was not distinction and educated in Canada paid a visit to the Old Country he would be detected as soon as he opened his mouth. The English diction is applauded by American rattes when they hear it in the talkies, and modify the various "American accents," and the control of the Canadians tin Harvey, when he was in Hamilton some years ago, remarked that the person who had "a good ear" would change his accent through intercourse with others quicker than one who-gould not detect fine differences in tone and emphasis."

MONDAY'S NOMINATIONS

Monday sees the last chance of any citizen to enter the race for civic honors. Opportunity awaits a number of men' to serve their community and fo'deyelop their talents by service on various civic bodies, whether in the council or in the board of education or on the Hydro commission. Only those nominated on Monday will have a chance to enter the fray. Tuesday will be too late. There is still time to get ready to join in the contest for the various offices, or nowing in the contest for the various offices, or nowing is about off the contest for the various offices, or nowing is about off the contest for the various offices, or nowing is about off the contest for the various offices, or nowing is about off these contests of the various offices, or nowing is about of the contest for the various of the various Monday sees the last chance of any

ious offices.

A year of promise is ahead of those who decide to offer themselves to serve and are chosen—a year of responsibility for it is felt that the coming twelvemonth will see a general revenior distincts conditions and of credit throughout the world, that Belleville will participate as much as any other civic centre. Those who as any other civic centre. Those who would like to serve Belleville in any capacity may therefore entitle themselves to serve by entering the race for the municipate of the m

KEEPER OF THE LIGHT

Below me shriek the mighty waves Whose roar resounds across the night And beats against heaven's architraves, For I am keeper of the light.

Within the rock-walled lighthoue tower, Far, far above the raging tide,
Alone from dusk till dawn's pale flower,
I tend the beacon flashing wide.

With only winds and stars for friends
Deep joy is in my nightly task,
Thanksgiving from my heart ascends,
No greater happiness I ask.

The tides below me ebb and flow, The seaguils scream, gales vex the night And every voice that calls I know For I am keeper of the light.

All undisturbed by winds or waves
In turnult of tempestuous flight,
I know the light can guide, can save;
My trust is in the light, the light!

To Heads of Families, Everywhere in Canada.

Co-operation—the Keynote to Progress .

As head of your family, you always place the interests of your sons and daughters alwad of the interests of outsiders, don't you? You may be not the friendless terms with cutsiders, yet you concern on you for help of any kind. Callectively you form the oldest co-operative unit known to man-the home. And the best way to promote the welfare of that or any other co-operative unit is to do everything possible to promote the welfare of the individuals who comprise it.

Sentiment and self-interest combine to cause you to place the interests of your family first. You assist them to establish themselves in life, not simply because they are your sons and daughters, but because their success will add to yours.

Similarly, sentiment and self-interest combine to regulate your deal-ings within your own community. You help your neighbour, not simply because he is your neighbour, but because you believe he will be willing to help you in return. You and he have many interests in common. As a matter of good businessy our pefer to trade with those who trade with you

Once beyond the borders of your community, when you get him the sentiment tends to grow weeker, and the element of self-interest sentiment tends to grow weeker, and the element of self-interest sentiment communities in the mass is sentiment of self-interest send our communities in the mass is sentiment to self-interest send our communities in the mass is sentiment to self-interest send our communities in the mass is sentiment to self-interest send our communities in the mass is sentiment to be sentiment.

If your money goes to workers in Canadian sectories, don't you put them in a better position to buy your when the parties, you give and a sectories of the sectories of the parties of the

sale If a simply the community trading principle on a little product seals and you collars to factory workers in other countries, and what assurance have you that such workeas will leave buy as much as a central season and the community circle, beyond even the national family circle. They have gone where there is no mutuality of interest, to countries where it impossible for you to influence their spending in the bilightest degree.

Name, and holds. What would have happened if this money, instead of being sent to corn govern outside of Canada, had been spent with grain growers in Western would have been equally as good for the production of milk and edgis, and considerably better for the production of becom? Wouldn't the decision of the considerably better for the production of becom? Wouldn't that could reduce the considerably better for the production of becom? Wouldn't that could reduce the considerable sections? And I governed the converted had more money to spend, vouldn't that have mean't a better market for your milk, edgs, and porties.

Some of the money you spent for imported corn would almost certainly have come back to you if you had spent it for Canadian feeds instead. As it was, how much do you think ever came back from the foreign corn grower to whom it was actually cent?

So getting back to where we started from, don't you agree that it always pays in the long run to develop trading operations as much as possible within the family circle?

Very sincerely yours.

CONTINUITY OF MANAGEMENT

Continuity of government from year to year is unbroken. Whatever the result of municipal elections the movement goes of municipal elections the movement goes on. Put in common parlance, there is not a man whose position cannot be filled. This is equivalent to saying that the work goes on though the worker is changed. Of course it as well that this is the condition of life otherwise there would be some terrible wrenches in the social and municipal life.

cipal life.

Despite changes of membership of councils and boards of education a civic spirit seems to carry forward. This does not mean that the man of great natural grits and of painstaking service does not leave his mark on municipal life, but it deaths that the tendency counts a great.

At present in spite of the great de-pression which is worldwide, Belleville's trend is forward and upward. With this favourable line of movement the 1931 city council has an initial good fogune and ad-vantage which cannot be lost sight of. FATE'S INTERSECTIONS

FATES INTERSECTIONS
Fate, destiny or what you will, performs strange feats during the lifetime of some men and women Saturday night a youth aged nineteen went to rest in the police shelter, having previously told the police of a brother he had not seen for at years. A tew minutes later that young brother now sixteen, arrived and gave his name for a night's lodging at the same hostelry. The police saw the hostelry. The police saw the hostelry. The police saw the desired in the same for a night's lodging at the same hostelry. The police saw the desired in the same for a night's lodging the saw the hostelry. The police saw the desired in the same hostelry. The police saw the hostelry is the same hostelry. The police saw the hostelry had been saw the hostelry and the performance of the same hostelry had been saw the same hostelry to the "bedroom" and the reunion of bro-thers who had not seen one another since they were ten and thirteen years of age was effected. They are, "up against it," but went away together reunited to strug-tle against unemployament. This story in a novel would be called fiction, not fact, but then truth according to the adage is stranger than fiction at any

Such a meeting is considered accidental but many coincidences of this kind come to notice from time to time. If it is 'nothing more than chance, it is natural that once in some million of times these two brothers would be thrown together. This fate might find one not only in the police cell but in divers other places. Fiction gives the story of a son acting as prosecutor of a parent who had fallen on evidence that the property of the property

POLICE SHELTER

With unprecedented demand for shell with unprecedented demand for sile-ter at the police station these nights the conditions at this tramps' rest are more and more emphasized. Saturday even-ing a man from this district was brought in for intoxication and had to be taken to his home as it was felt unfair to put him in the shelter where he would be in close touch with the houseless men who are touch with the nouseless men who are tramping up and down the country seek-ing for work and much of the time miss-ing it. On this occasion a segregated cell which he might have used was also used for the night visitors to the station and

these conditions could endure them.

The wandering knights of the road and the idle men who come to the station will not be those who will protest for most of them are giad enough of shelter even of this kind but it aseems to be the duty of the city to provide proper place for housing these men and those who are unfortunate enough to come under arrest.

The need of a new woise station best of the conditions the conditions the conditions the conditions are not conditions.

The need of a new police station has been brought to the attention of the public but little has been done to remedy the pre-

TRACES, TREND OF NOVEL TODAY

Mr. E. C. Kyte, of Queen's Shows Remarkable Trend of Fiction

The novel in English has developed more along certain new lines in the past in years than in the one hundred and lifty years. It may take three hundred years to bring it to the end or it may not take as long, said Mr. E. C. Kyte, librarian of Queen's University, opening a serier of lectures on the novel take evening at the Collegiate Library before the Belleville vessions are selleville.

CITIES WILL ASK RELIEF

How heavily Belleville is burdened with the highway and county surburban-road costs may be realized by consideration of the statement that to the end of year 1929 the city's share of the main high-year 1929 the city's share of the main high-year 1929 the city's share of the main high-year of Belleville along the Foxboro and Picton road, is \$117,129.90 for construction and \$9,16.13 for maintenance. This includes the city's share of the bay bridge costs to the end of last year. On the the Ywedi and the city's share of the bay bridge costs to the end of last year has, the control of the city's share of the cost of the city of the city of the city's share of the same period to the city of the city How heavily Belleville is burdened period

tation on distance goes, and the city would have to pay its share.

This heavy burden of taxation which is resting upon the city and is being met by debentures, is similar to the load under which other municipalities are groaning. Throughout the province there is being made a concerted effort to secure relief from this incubus of taxation. It will be the form of a monater deputies and present the form of a monater deputies and present the form of a monater deputies and present the form of the control of the con efforts to shift the burden from the city's shoulders without success and will undoubtedly be ready again to wait with others upon the Government to urge abolition of this tax. It is well that Belleville should act in conjunction and eo-operation with the other cities for only the most influential and representative delegation should go to present the case for the urban centres. The deputation will undoubtedly ask that further collection of the levy be removed with the government accepting: removed with the government accepting full responsibility for the construction and

full responsibility for the construction and maintenance of roads.

Papers throughout the country express the view that the municipalities have a good case but it must be presented firmly and not in, 2-half-hearted manner. To this end a well organized deputation to wait upon the government is necessary.

Urban municipalities believe in general

that the tax levy is an unjust assessment, that the roads paved by the province, or suburban county roads should be paid for by those who use them. The case of the cities is this, that they are given no assistcutes is this, that they are given no assist-ance whatever in the laying of permanent roadways or bridges within the municipal-ities, that from the cities go large taxes for gasoline, a large amount of which is not used up on the rural roads but in the cities, that the cities provide paves street for the use of the rural residents; the provincial highways or the suburban county roads.

the provincial highways or the suburoani county roads. What the larger cities of Ontario are paying towards this fund is immense. Fifteen of the larger municipalities, cities thirty thousand or less, have contributed for permanent roads built outside the cities two and one-third million dollars, an average assessment per capita of eight dollars and a half. This levy as it comes upon the individual is heightened by the gasoline tax which creates a vast revenue for the Department of Highways. The Premier Radio Offering of the Season!

Two well-known manufacturers have combined in the presentation of this superb radio special! One, a famous er of cabinets — the other a well-known builder of chassis!

The cabinet, a magnificent de luxe High Boy style is of walnut with burl walnut inlays on the doors. Beauti-finished with swinging doors that swing back fully giving the impression of an open face console. Pollished erfection, it is oprogous furniture piece.

The Chassis is an approved, fully tested acreen grid engineering triumph. Uses three screen grid tubes and is nted on a pressed steel metal base. Complete shielding ensures humless reception. Push-pull amplification. A full dynamic speaker provides undistorted tone with remarkable fidelity.

A special alloy used for the core of the audio transformers provides an efficient tone control.

You have only to see this machine to experience the desire to own one — to hear it, is amply convincing. Set them on display — in the window and the department.

AUNTJEMIMA PANCAKE FLOUR

Aunt Jemima's recipe was famoun in the heyday of the Old South. Her flour that comes to you today is just what she used then, mixed in the same proportions so you get the same proportions.

Many other tasty things can be made with Aunt Jemima Pan-cake Flour...waffles, muffins or pancakes with jelly. Or, if you prefer the tang of buckwheat, it is just as easy to use Aunt Jemima Jergered Buckwheat Flour. Keep both kinds of Aunt Jemima always in the pantry.

CHRISTMAS will be different this year if you do this

HE WAY to make your Christmas shopping easy is to look at the advertisements in the daily newspapers. You will find in them a host of helpful suggestions.

Instead of tramping aimlessly from—shop to shop—and from counter to counter—inspecting thousands of articles displayed for the holiday trade, turn to the advertising columns of your favourite newspaper and be guided by the most direct route to the desired purchase.

Wasted time and wearied steps are thus eliminated and your shopping is done to much greater advantage.

You are puzzled about what to give Father or Mother; it is hard to decide what to buy for seven-year old Betty; you find it difficult to select a present for the best friend and the older folks. No matter what your gift problems, and we all have the same problems at Christmas time, the advertisements in the daily newspapers will help you solve them. Reading the Christmas sales messages in your daily newspaper will save you time, energy and money. Read them every day.

Turn to them now and benefit by the assistance which retailers and manufacturers offer to solve all the puzzles that arise out of your Christmas shopping. The best and choicest wares of all the world are available in the shops today.

A FULL HOUSE

Tonight city issues will be dealt with at the public meeting at the city hall. It will be the candidates' last public opportunity to present their cases to the electors; it will be the electors last public opportunity before the elections to meet face to feed the man who have small the size of the elections to meet face to

unity before the elections to meet face to face the men who have carried the citys responsibilities during the past year.

A rouging audience fires a speaker, an empty hall freezes any speaker's en-thusiasm to the marrow. Therefore Belle-ville citizens should jam to the doors the city auditorium. They cannot help learning facts of vital published to the published of the city and the published of the and of the men who have been public-spirted enough to offer themselves as candidates.

A BUSINESS ADMINISTRATION

To be requested by his fellow citizens To be requested by his fellow citizens to assume the chel magistracy years after he had filled the office with distinction was the surest proof of the stability of city government which the late Henry Freeman Ketcheson with his councils gave Belleville. That friends had asked him to run & recent years was pa slight any those who have since filled the mayoration office; it is but a proof of the provided him to be supported by the provided him to be supported by the provided him to be supported by the support of the city.

city.

Those who recall ex-Mayor Ketcheson's regime remember its solid worth. He was aided by strong men in those trying times of the war, and his business training was exactly what was required to help the city exactly what was required to neith the strong has stress period which it is hoped will never again be duplicated. The mayor's knowledge of finance was of immense value to the corporation.

Confidence in his regime was one of

the reactions of the public, to the business-

TRUSTEE CHANGES

Belleville Board of Education will miss many familiar faces this coming year, For some years two women sat on the board and performed good service, latpoard and performed good service, lat-terry there has been but one woman mem-ber, Mrs. McFee, and now none will be on the 1931 board unless the council at its inaugural session appoints a woman high school trustee. Another change will be the absence of the present chairman, Mr. arthur Jones, who as head of the finance committee and as chairman had close watch on affairs. watch on affairs. Usually a retiring chairman remains on the board but Mr. Jones has elected not to contest a seat.

Jones has elected not to contest a seat.

Five new men will occupy seats with nine other public school trustees. Good new material has entered the Board.

Why there implies seith a change in the personnel of the Board may be explained by the fact that one of the great understakings of the board has been actived, the modernization of the educational isotitudines of the size a date with the striptions of the size a date with the institutions of the city, closing with the completion of the collegiate. Having seen this work carried through, some of those who have been instrumental in the task of its construction and have seen it start on its program of educating the youth, may have felt that it is time for others to carry a portion of the responsibility in thought and time which membership in the Board of Education demands of the

Viscount Actor recently—histart that youth was not playing its part in the world! today for tiermany pins her faith on a man of eighty-three years. Hindenburg, and Poigears, aged 70, may come back in France, while the leaders in England are identy statemen. Are youth and middle age allowing old age to bear more than the min of the problems of this age than the min of the much vaunted democracy of today?

Those who have been praising the fine weather of the late autumn will now spend their time wondering how long before the stinging blasts and snow drifts of real winter will be delayed.

FIFTY YEARS IN BELLEVILLE

The Belleville Branch of The Dominion Bank has completed its Fiftieth year of service to the residents of the city and district, and it is appropriate that the Management should express its appreciation of the confidence reposed in the Institution and the business entrusted to it.

For half a century the Bank has played its part in the development of industry and agriculture in this country. Many customers have been served in that long seriod; some of the original country of the control of the

THE VOTERS' LUTY

Monday Belleville voters have an opportunity to the hard in possible to roll up the biggest vote ever recorded in a municipal electron. Too many electron stay away from the polls and doubtless a good percentage of these would be first to complain were a city government. Determine the work of the government lies in their hands: first, on nomination day, and then on election day. If any electro failed to get a nomination or to remain on the ballot for Monday, it is his own fault, no one-else is to blame. That much is remained to the complete the contests are narrowed down this year and the voting will only make a choice of good men, yet 'citizens should yole.

Electors should let no one else decide for them who are to be elected. Voters who stay at how are to be elected. Voters who stay at how are to be elected. Voters who stay the mounthies for the time being which was won at great scarrifices throughout history. Some men (and many of them) had to dare might and principalities and powers 6 win for their delivariby allow degrees the inal three saying what the electors feel. In the balloting booth the electors feel. In the balloting booth the elector can be as brave as an army, or as a man, he is king, for he alone can speak with the ballot, no power on earth can tell what he must do when he goes in the saying the saying the saying the saying the saying the saying the possible in time that those who neglect so precious an opportunity might lose it. If a whole nation neglected the franchise, there is no doubt that an illuvind would awend from the and the end of the saying the say Electors should let no one else decide

ed the franchise, there is no doubt that an ill-wind would sweep down upon that na-tion, autocracy would run wild and liberty would disappear or be forced to fight again and win slowly its way to the freedom en-

ands of voters who should go to the polls Monday. Surely it is worth a little en-Monday. Surely it is worth a little en-ergy to have the opportunity to say with absolute power, who shall be elected.

HIGH COMMISSIONERSHIP

Appointment of the Hon. George Howard Ferguson, as Canadian High Commissioner, announced late yesterday afternoon, came as no surprise to Canadians, for his likely appointment and acceptance of the post have been much discussed of

No man in Ontario has made such an appeal to the imagination of the people as the Premier of Ontario, who is going to London to succeed the Hon P. C. Larkin,

the rremer of Untarro, who is going to London to succeed the Mon. P. C. Larkin, will fill a poet of great importance in these days of the control of the property of the control of the control of the property of the property of the province of Ontario and latterly as Premier of the Province of Ontario has with his natural gifts prepared him for the high honor which has come to him. He built up a strong party in the Legisture, and the words are in the langle of the province o He knows Ontario's problems and istranger to any part of the province.

EDITORIAL BRIEFS

Almost every newspaper in the country is every day; speaking optimism. The combined effect ought to make itself appreciatively felt shortly in a return to-the normal irend. Optimism must be tempered by wise leadership. Unwise optimism would mean disaster.

MODERN ETIQUETTE by Roberta Lee

Q .- Should a lady ever thank a man for any social favour?

A.—No; if they have been to the theatre together, she may tell him she has had a delightful evening, and has enjoyed being with him, but should never thank him.

Q.—When a man calls upon a lady in a hotel, where should she receive him? A .- In the parlor or reception room.

Q.—Is it necessary to wait until everyone is served before beginning to eat? A.—No; but wait until the hostess has begun to eat.

"We invade a new field with vastly improved cars at the lowest prices in our history"

> BY WILLIAM J. MCANEENY President, Hudson Motor Car Compan

WE have built these models up to and beyond the 1931 standards of performance and quality in every way, and have never in our history offered so many improvements. Quality is greater down to the last detail. Every phase of performance has been greatly improved, and the luxury we have built into the cars is substantially greater than ever before. Motors are larger and more powerful. An efficient system of oil cooling is introduced. A marked improvement in carburetion increases flexibility and economy, Bodies are longer and wider. These cars possess the finest, easiest riding qual-/ ities. For the first time, such comfort is available at these low prices. Only great manufacturing economies and the fact that our large resources permit us to take the fullest possible advantage of reduced commodity prices have enabled us to offer the public the greatest combination of quality and low prices in our entire history.
